| Spelling And Grammar Checker Using Deep Learning(Bi-LSTM) Mentor: Ms. Shubhangi Kale Team Size: 4 Key Skills: Machine Learning NLP Python SQL Web Development A spelling and grammar checker using deep learning, specifically a bi-directional long short-term memory (Bi-LSTM) model, is a powerful tool that can help writers catch errors and improve the quality of their writing. This model works by analyzing large amounts of text data to identify patterns in sentence structure, syntax, and vocabulary usage. The benefits of using a Bi-LSTM spell and grammar checker include increased accuracy compared to traditional rule-based checkers and the ability to learn and adapt to different writing styles and genres. | 01 Aug, 2022 - 31 May, 2023 |

ASSESSMENTS / CERTIFICATIONS

Microsoft Certified: Azure AI Fundamentals

Aggregate: 80 / 100

Subjects: Artificial Intelligence (80 / 100)

Key Skills: AIML Machine Learning Azure

The Microsoft AI 900 certification validates knowledge of AI concepts and Azure services, covering AI workloads, machine learning principles, computer vision features, and Natural Language Processing (NLP) workloads. It is valuable for learning AI usage in Azure and demonstrating AI knowledge to potential employers.

AWS Academy Graduate : AWS Academy Cloud Foundations

Key Skills: Cloud Computing AWS Services EC2 CI/CD CodePipeline

SEMINARS / TRAININGS / WORKSHOPS

Software Engineering Hackathon Institute Name: MIT Academy Of Engineering Alandi Pune

27 May, 2023 - 28 May, 2023

Key Skills: HTML CSS PHP PhpMyAdmin XAMPP SQL Testing and Deployment

We just design a SRS document first and then based on that document implemented the project. Our project was Government Procurement Management(Online Tender Management System) which aims to save the tender allotment time and helps government to get the best tender based on various specifications.
